Lunt *the third of me*

"I'm of my several minds, I am the worst of my kind ..."

Stephen Malkmus

The third of me was made during november 2002.

With the fear of self separation, i made this record. Each track was improvised, trying to express different aspects of a unique feeling.

This musical content required unity in diversity.

Thanks to Vincent, everyone at Another Record, Sandra, Gerald, Lionel, and everyone that i forget.
